

IT System Administrator

Formation Environmental, LLC (Formation) is currently seeking a full-time Information Technology (IT) System Administrator to join our growing team in Sacramento, California. The System Administrator will be responsible for VMware/Windows/Linux Servers and networking systems and will assist with day-to-day IT activities, including but not limited to the installation, administration and maintenance of network hardware and software, ensuring efficient system performance, and safeguarding the IT infrastructure.

The successful candidate will have strong leadership, organizational, and communication skills. The candidate must be detail oriented, able to work independently, and effectively interact with managers, as well as the technical and administrative staff. The ideal candidate will possess the following traits:

- Degree in Engineering, Computer Sciences, or another related field
- Minimum of 10 years' experience in the field of IT
- Strong writing skills and creative/innovative problem-solving skills
- Knowledge and experience supporting, troubleshooting, and configuring PC, desktops, and laptops, firewalls, routers, servers and switches
- Experience administering and maintaining Window desktop and server operating systems as well as Linux operating systems and configurations
- Experience with VMware configurations and management
- Experience in performing regular backups and implementing appropriate processes for data protection, disaster recovery, and failover procedures
- Experience in Cloud Systems Administration (Office 365 Exchange/Teams/Sharepoint, Azure AD, InTune, etc)
- Experience in administering Linux and Microsoft HPC Cluster
- Familiarity with iSCSI and large-scale NAS implementations
- Advanced knowledge of system vulnerabilities and security issues
- Experience in managing connectivity, network performance, and maintaining network software configurations
- Understanding of network security and auditing best practices
- Flexibility to work odd hours that sometimes may include nights, weekends, and holidays as emergencies arise
- Ability to lift or move up to 50 lbs
- Server OS certification or Cloud management certifications preferred.

Formation offers benefits for full time positions. These benefits include medical, dental, and vision coverage along with a 401K plan, short- and long-term disability, life insurance, vacation and sick days, and additional optional benefits. The salary range for this position is \$80,000 – \$135,000 per year, commensurate with education, experience, and ability.

Employment offers are contingent on the results of background checks, including employment history, criminal background, Federal Watch List, as well as drug and alcohol screening. All background checks will be conducted in accordance with all local, state, and federal laws. To apply for this position, please submit a cover letter and resume to hrinbound@gmail.com.

About Formation Environmental

Formation is a rapidly growing consulting firm with offices in Boulder, CO, Sacramento, CA, Calipatria, CA, Portland, OR and project offices throughout the U.S. Our multi-disciplinary team provides scientific,

technical, and strategic expertise in environmental engineering, soil science, water resources, vegetation management, and remote sensing.

Our scientists and engineers are working with clients on some of the most challenging environmental issues facing our world today. Many of our clients have complex and unique challenges that require a customized solution to meet regulatory requirements, compliance driven schedules, programmatic improvements, risk management, stakeholder engagement, or advanced geospatial insights. Our team excels at working with each client to characterize problems and to create solutions through applied science and cutting-edge technology. To achieve this objective, many of our team members collaborate effectively across multiple practice areas (and with outside teaming partners) to assemble the best combination of experts to meet our client's needs.

Formation provides an exciting work environment with opportunities for mentorship and professional growth, including:

- Participation in professional societies, research projects, workshops, and scientific conferences.
- Collaboration with teaming partners, research facilities and academic organizations,
- Encouragement to explore new markets, technologies, methodologies and collaborate within and outside the company with the goal of pairing client opportunities and challenges with advanced technology and expertise.
